- **Electronic Comments:** Submit electronic comments by visiting the Board-sponsored project website, www.tonguerivereis.com.

Please refer to Docket No. FD 30186 in all correspondence addressed to the Board. The comment deadline is August 24, 2015.

The 100+ residents on Moon Creek Rd
are concerned about an increase in traffic.
Ranchers haul cattle, construction trucks,
and traffic for those who ^{use the road} go to work
everyday make the road poor. Condition
A hard rain washed out much of the
road in places too. It does not hold
up to the amount of traffic presently
and will not hold up to an increase in

NOTE: When an individual chooses to submit an environmental comment or some other submission, his or her personal contact information is considered public information and is shared within and outside of the Board without additional authorization.

The Custer County Commissioners told us they have 900 miles of gravel road to fix. ~~every~~ Therefore, it doesn't get fixed very often - maybe once every 6 mos. or year.

Moan Creek Road residents would appreciate mitigation if the road traffic increases as a result of the railroad. It has not enough gravel, rutting underneath and turns to clay when ~~wet~~ ^{wet} making the road dangerous because there are no railings on the high hills.

Unless they commit to resurfacing for heavy equipment ~~(that will come in to build this railroad)~~ ^(that will come in to build this railroad) I would be against it. The road is 25 miles long.
