Subject: WRP Consistency Review: Montauk Cutoff Abandonment (WRP # 15-106)

Hello Mr. Saltz,

We have completed the review of the project as described below for consistency with the policies and intent of the New York City Waterfront Revitalization Program (WRP).

Montauk Cutoff Abandonment: Abandonment of two segments of LIRR-owned rail line on the Montauk and Mainline Cutoffs, and removal of 0.04 miles of the Montauk Cutoff viaduct line to allow for more economical construction of tracks related to East Side Access project.

Based on the information submitted, the Waterfront Open Space Division, on behalf of the New York City Coastal Commission, having reviewed the waterfront aspect of this action, finds that the actions will not substantially hinder the achievement of any Waterfront Revitalization Program (WRP) policy and hereby provides its finding to the New York State Department of State (DOS) that this action is consistent with the WRP policies and the local program. Please note that the proposed action(s) are subject to consistency review and approval by the New York State Department of State (DOS) in accordance with the New York State Coastal Management Program.

This finding is only applicable to the information received and the current proposal. Any additional information or project modifications would require an independent consistency review.

For your records, this project has been assigned WRP # 15-106. If there are any questions regarding this review,

please contact me.

Regards,
Allan Zaretsky
