Message: I believe the proposed purchase of the EJC by Canadian Nat'l should be approved. It would of course lessen the rail traffic through Chicago. In addition, it will lessen rail traffic through Franklin Park. Other suburbs through which trains will pass due to the purchase, notably Barrington, have voiced concerns due to noise, traffic congestion, safety of their children and pollution. I have lived in Franklin Park for 36 years and I understand all of the concerns because the residents of Franklin Park have dealt with them for that period and a lot longer. The approach by the large income community of Barrington seems to be we are too good for these problems, let the lower income areas deal with them. Please DO NOT allow Barrington and the other communities to stop the sale because of the political influence they are able to wield due to their economic status. Thank you for your consideration.
