

RE: PROPOSED CANADIAN NAT'L. RAILWAY CO.
ACQUISITION OF ELGIN, JOLIET, EASTERN RAILWAY CO.

Congress **MUST** fight the CN acquisition of the EJ&E and pass the HR 6707. Legislative action must be taken to protect our region!

STB ~~has~~ jurisdiction over this proposed deal with CN and must move to **DENY** this transaction.

It's **your responsibility** to protect this region and the city of Barrington. So get busy and **support the people** who elected you!

1. Over 20 daily trains, each having over 100 cars, will be blocking 3 main streets in Barrington.
2. Delays at crossings will interfere with school buses, emergency vehicles, businesses and commuters.
3. Rail and pedestrian safety, vibrations, noise and pollution are major issues that must be addressed.
4. Property values will drastically lower on homes in subdivisions near the tracks.

AMERICA COMES FIRST - NOT CANADIAN NAT'L.
