Transcript:

I would like very much to voice my extreme opposition to the railraod coming through Barrington, the CNN purchase of EJ&E. I feel like it is too much of an environmental hazard, a personal hazard, a he safety issue for the number of schools that are along our railroad, and I think the pollution is a huge concern as well as any toxic spill or anything that would damage our water supply. I just absolutely want everything to be done to stop and not lett CNN come through this area. Thank you
