SAFETY

My primary concern is how you are going to increase traffic 40% w/out a plan presenting a plan of how you are NOT going to tie up traffic at 4 major crossroads in our town. Also - these crossroads are all near elementary and middle and high schools. We have major traffic including walkers children crossing these tracks in the morning and evening - when it is dark in the winter. A train every hour is not feasible w/out some kind of major thought as to how our children are going to be safe. - Emergency vehicles will be impacted - can't get them when all roads are blocked every hour! Wow! are you kidding me?

Noise - I happen to live on the track - oh well - sucks to be me.

Pollution - Freight Exhaust will affect our fabulous wildlife derailment or well & septic properties - what a mess -

You are criminal to try to run such a large Freight System thru a tiny town like Barrington - criminal
