Dear Dane Navecky,

This letter concerns the proposed railroad path through Brookhead Township.

Our grand son & his wife have always wanted to be farmers. They are farming her grandparents farm as it is impossible for young people to come up with money to purchase a farm. They milk 65 cows on 200 acres.

This railroad goes through their land. They would be put out of farming. The small farmer deserves our respect for what he does for our country.

This would be an added hardship because their 1st born was born with cystic fibrosis in Feb. She will be in the children's hospital for several more months. They are having trouble with this added expense on a farm income as is.

Please don't do this to the family farmer.

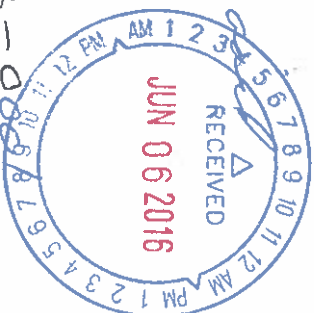

Sincerely
Dorey Allred

Goody Alvin
