Transcript:

I'm strongly against the EJ&E plan that has the Canadian National running through our area. I'm very concerned about the pollution problems, the traffic problems, the environmental problems, about the hazardous waste materials problems, and the extensive amount of single track that runs through our community. It's going to, not be able to accommodate 20 trains a day and what should be done, if they're going to go through with this plan, the Canadian National should be made to put in double track at their expense to ensure a smooth flow of trains. And, so this was my main concern. Thank you
