Hello,

As several folks are out of the office through the end of this week, the deadline for getting comments on the report and transmittal letter has been extended to **close of business on Tuesday (8/7/12)**. If you cannot meet this deadline or if you do not intend to provide edits/comments on these documents, please let Barb or I know as soon as possible.

Thanks!
Elizabeth

Subject: REVIEW: PMRE - Revised Segment 6 survey report and transmittal letter

Hello,

Attached for your review and comment is the revised PMRE Segment 6 Survey Report and transmittal letter. The revisions are based on comments received from STB on the June 15 draft and our meeting to discuss these comments on July 20.

Please note that formatting and pagination issues will be resolved once this review is complete and revisions are accepted.

We request that you provide your comments on these edits **before noon (AK time) on Friday (8/3/12)** so we can get the document submitted before close of business on Friday. If you cannot meet this deadline please let Barb or I know as soon as possible. Also, if you do not intend to review these edits or provide comments, please let Barb or I know before noon on Friday.

A few of the STB's comments/edits that were not specifically addressed in these revisions:

- Revision in the 1st paragraph of the Executive Summary to spell out STB in the last sentence – no revision made as this acronym is spelled out earlier in the paragraph (2nd sentence)
- Comment in Section 3.1 (paragraph 7, 1st sentence) asking how many test pits were excavated – the discussion in this section is focused on methods and not results. A summary of test pits excavated during the survey is included in Section 3.2 and Appendix B and language was added here to provide clarification.
- Comment in Section 3.3.2 (p. 27, 4th paragraph) requesting additional documentation/description of how elements are lacking rather than a checklist – no change was made as we feel the level of information is adequate as written (and supported by the added clarification elsewhere in this document)
- Revisions to block text in Section 3.3.1 (p. 24, 1st paragraph) – no revisions made to text as this text is a quotation
- Comment that not enough information was provided to support eligibility recommendation in Section 3.3.2 (p. 29, 3rd paragraph) – no changes were made to this paragraph as we feel that sufficient information/clarification was provided throughout the report
- Per the 7/20/12 meeting, no determination of eligibility was included for ANC-00086 as this site no longer exists. No determinations of eligibility were included for modern remains found during the survey. Text was added throughout both documents to provide clarification as to why no determinations of eligibility were completed for these resources/sites.

Thanks!

Elizabeth
