

To whom it may concern,
 I am in favor of the purchase of E J + E railroad by Canadian National railway. Will county has way too many trucks on our roads. We need to move more freight by rail to get some of the trucks off our roads. Will county has way to many traffic accidents every day and most have trucks involved. I have been in favor of more rail service for years. When will this this country improve our rail system and ship by rail instead of truck.

Thank you
 Andy Suligoy
