The first thing that's really aggravating me and pissing me off is that you do not have comments in my national language, which is Slovenian and Croatian, why is Spanish language so popular? That does not mean anything. You should have English only, this way you can assimilate everybody, so everybody will feel equal. What you are doing is discriminating by not having it in multi-language and you should not have it in multi-language, you should have it in one language, English only. Let people know you discriminate is not good. Any kind of discrimination is discrimination, so stop it. Have English only. Okay, now we get to what I really want. I live right by the railroad track over here in Plainfield and I do not like it when the trains come around 12:30, 1 o'clock in the morning. If you increase the train traffic you're going to have them at all hours. How will anyone try to get some sleep? You're going to have 42 trains maybe coming through? I do not think so. If you want to get a hold of me and you want to call me, my phone number is 815-577-8653. Thank you for your time. Good Bye
