ATTN: Docket # FD-35952

Date 3-30-17

Ken Blodgett
Surface Transportation Board
Docket # FD 35952
395 E Street SW
Washington, D.C. 20423-0001
Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

GLB should not be allowed to claim Eminent Domain for his own profit. NO ONE SHOULD BE Allowed!

Our quality of life will be messed up for a very long time.

He could go find another pot to stir. We need to keep our water, soil and habitat free from a man or business like this. Towns will be ghost towns because of closed roads.

Police, Fire and Hospitals will be cut off from us. Farm land can never be manufactured. God made it for us to care

for it, not abuse it. We don't need this railroad to destroy what has
come back

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
