Subject: Proposed Abandonment

Date: 11/16/11

To: Richard H Streeter
5255 Partridge Land, NW
Washington, DC 20016

Mr Streeter:

This is in response to your request for information to help you prepare an environmental assessment for the abandon and discontinue rail service on segment of the Norman Branch line, in Clark and Pile counties. This site has been converted and it is my opinion that your project will not have any adverse environmental affect on this site.

If I can be of any further assistance to you concerning this information feel free to contact me anytime at (870- 836-2089-ext-106).

Sincerely

Leodis Williams
Soil scientist/NRCS
