Transcript:

I support the amendment that is being brought up and the reason is because I recently had an emergency which was believed to be a heart attack and I could not get to my immediate care center because of the railroads were stopping there, so I had to go to the nearest hospital. I had no physician there and I was taken in and I was given some procedures there and taken care of. However, I had no knowledge of any of the people there or a doctor, which put me at disadvantage. I support this amendment and I hope that you approve it. Thank you and good-bye.
