I am strongly opposed to this Canadian National and EJ&E Railway acquisition. Um it is going to cause accidents. It is going to cause noise pollution. It's going to cause harm. Uh our traffic situation, which is bad enough to begin with. It will hurt children. Um it is just not a good idea and all the surrounding suburbs that already have this problem are very happy to see us get the problem because they want to get rid of it. It isn't good for anyone. Noise pollution is another factor. Also, the fact that you are only willing to pay 5-10% of all the needed expenses that we will incur by putting up new ways for our transportation, is ludicrous. You take in \$2 billion and you can't expect the taxpayers to be paying more money. So, please, don't put it near Frankfort. We don't need all that traffic. Let Canada solve another problem. We don't need it. Thank you
