Transcript:

I'm calling in regards to the Canadian National Railway acquisition, in opposition to this acquisition. I can't even believe that this is happening and it's being based on an environmental study that doesn't even take into account the impact on the community. Specifically what I'm worried about, are my children who's emergency vehicle access to all the schools will be blocked, to the noise, to the haz mat materials being carried and the effect that it will have, not only on my family, but on the families in this community. I strongly, strongly, strongly oppose this, particularly because the company also stands to be making no concessions to reach out to the communities, to provide them financial support. I um, I'm just strongly opposed to this and this is my voice mail in that regard. Thank you
