Transcript:

I'm calling about the railroad splitting this community right down the middle with our subdivisions on either side, with schools on either side. I'm very concerned about railroad crossings creating traffic and complications for parents picking up their children in a timely fashion as well as other emergencies, getting fire department across the railroad tracks, there's only one bridge in a 4 to 5 mile stretch. If our community grows, we're going to have problems with emergency situations, ambulances, fire department getting to a fire or emergency, as well as transporting an injured person from one side of the railroad tracks to the nearby hospital. I do not believe the transportation board addressed this issue properly and I think it's a very big concern. Thank you for listening.
