Message:

I am objecting to the sale of EJ&E to CN, do to the fact, I moved to this area to be away from train traffic, train noise, and the unsafe conditions trains have. I'm from Chicago's south east side and know how bad it can get waiting for trains. So I moved. Now you may want to have more trains move out to the west of the city. Well we were here first, and when we purchased our home out here their was no thought of heavy train traffic. Now you want to bring it out our way. We pay very high taxes so we can live in quietly out here in New Lenox. Please do not allow this to happen. Leave the trains where they are. Where all the people are use to train traffic. Thank you for your time
Michael Murphy
