Port MacKenzie Rail Extension Project
Environmental Impact Statement

COMMENT FORM

Your input is an important element in the Draft Environmental Impact Statement phase of this project. To help us incorporate your views and suggestions, please provide your comments below and mail them to the address preprinted on the back of this form. Please write legibly. You may attach additional sheets if necessary. Alternatively, you may submit your comments online at STB's Web site (<http://www.stb.dot.gov/>) by clicking on "E-Filing" and selecting "Environmental Comments" or by mailing a comment letter to the address provided on the back of this form.

Please include your name and address so that we can add you to our mailing list if you would like to receive subsequent information on the project. Thank you for taking the time to provide us with your comments.

What comments do you have about the Draft Environmental Impact Statement?

I am happy to see this project is moving forward. I believe this rail spur will help reduce transportation costs to Interior Alaska and to the Port MacKenzie from Interior Alaska. For many projects and potential projects - mining, manufacturing, and building this rail spur will make the difference in feasibility. I believe the Houston community is most eager to see this spur developed and historically Houston has been the most eager

to see industrial development. I am hopeful that some of the trails in this area will see improvement in accessibility due to the rail spur. Also if southcentral Alaska should suffer a major earthquake the Kik River bridges could become impassable and an alternative route for fuel and supplies will be strategically necessary to supply interior Alaska.
