Subject Go ahead and ship Nuclear material through my backyard

Surface Transportation Board ,
To whomever it may concern:,

I am writing to urge the Surface Transportation Board to ignore the LUDDITE comments of this troglodyte group - Friends of the Earth. They are ignorant and couldn't tell the difference between U235 and U238.

I would prefer you build a reprocessing plant at Yucca Mountain, as Nevada's economy, dependent on gambling, is in steep decline.

I guess the FOTE and other liberals are satisfied with gambling the nation's future by electing The One, and no longer frequent the blackjack tables.
