

PROTECT CHEYENNE HOMELANDS

NO NEW COAL ON NATIVE LANDS

HONOR THE EARTH

To the The U.S Department of Transportation -- Surface Transportation Board,

Arch Coal wishes to put in a Tongue River Railroad for a new Otter Creek Coal mine in the Cheyenne ancestral Homeland. The mine and railroad are opposed by the Cheyenne people. There is no public interest served as required by the Surface Transportation Board for this coal strip mine and railroad. There is no clear market for this coal, and it is wrong to destroy a people's land.

We ask you to stand up and protect the Northern Cheyenne ancestral homelands. Please show your opposition to the Otter Creek mine by opposing the development of the Tongue River Railroad. The Otter Creek area has been historically used by Native American tribes including the Northern Cheyenne and Crow. The development will have numerous impacts to the land, wildlife, water, air, and ultimately destroy sacred sites. The coal from this one propose strip mine would release 2.5 billion tons of oxide -- one of the biggest new sources, which would worsen the effects of climate change.

Sincerely,
