Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

This is outrageous. To jeopardize my
kid's safety for the railroad to make more
money is simply wrong. Toxic wastes through
residential areas is wrong. The existing
freight routes developed around industrial
areas. It was not planned or anticipated
that this route would be heavy freight.
Residential use, schools and other human
activities grew up near the existing
commuter rails. No one would have
developed this area for anything but
industry had we known this was
going to be a freight route.
