Dear Mr. Navecky,

Tracks going through E. Tighe Rd in Rock County WI.

Not only does Mr. Patton want to take land from my son and run trains past my grandson's bedroom windows, he also wants to close the road at their property on E.Tighe Rd.

By closing E. Tighe Rd he is cutting off access between their house and their daily commute to school (there and back), shopping, church, sport activities, grandparents, friends, etc. So.....take a slight 1 mile detour everyday and head west instead of east on their everyday commute. Oh wait, HE WANTS TO SHUT DOWN THAT ROAD TOO!

Ok, now head farther south or west (their commutes are all northeast). Now it is a 5 mile detour everyday, each way, forever? How does that help the environment having the residents running around all over the county trying to get to a road that Mr. Patton has not shut down for his own greed?

I babysit those kids, I drive them around, I visit several times a week. I do not want my access to them made longer by Mr. Patton. Perhaps he doesn't have grandkids that he cares about.

There already is a track less than a mile from their property than can and is being used by trains.

Dawn Zur
