Transcript:

I am calling to voice my opposition to CN plan to by ENJ I lived in the city and communities affected by the trains in the city and now live in the suburb affected by this and can only say that the train traffic in the suburb is already far worse than it was in the city and to see that increase 4 times what it was is an outrage to all the suburbs along the rail line. In addition to get out of my community and to interstate traffic I am at times forced to cross over 4 different railroad crossings. At the current time the length of the trains I get stuck at every railroad crossing all 4 that I have to cross to get to interstate 55 by the same train. If the trains are increased and the length is added, I imagine that I will never get out of Plainfield because the trains will be so long. Please vote NO for this proposal it is not a good plan for the suburb it is not a good plan for Chicago it is just not a good plan. There has to be a better solution than saddling ENJ with Canadian Nationals rail transportation issues. Thank you for your time and please again vote no. Thank You bye, bye.
