

10-18-16

Hi:

This is regarding Winnebago County against the Great Lakes Basin railroad. The voters of Winnebago County are requesting an immediate hearing on the trains running thru their land. Edward West, Williams Tree Farm & other businesses & many farms would be affected.

No one can guarantee a derailment can't or will not happen. It can destroy our rivers & the aquifer forever. Take a look at a map & understand the waterways involved. Noygren Wetland, Four Lakes, Camp grounds & Indian Mounds. There are still people that like to hunt!

This proposal would disrupt roads for buses & first responders, a grave concern to all.

Why has G. L. B. R. R. been able to bypass proper procedures?

The people want to be heard now. Any time or place, as soon as possible.

Yours, concerned voter,
Ramona Emerson
