Transcript:

I am calling to protest the acquisition of the EJ&E railroad by CN. I feel that the frequency of the trains that is predicted in our area is going to cause a problem as far as the safety of our children as well as all of our residents and I think the environment. The area that these trains are going to be going through is going to be causing a problem as far as the actual overhaul of the neighborhood. I really don't think that this is going to be a good move and I'm hoping you will take into consideration the residents though in our area. Thank you very much.
