Transcript:

I'm calling because the trains are just ridiculous out here in South Holland, Illinois. They go by very, very often and a lot of times you gotta wait a long time and then sometimes they'll just stop and sit, then back up a little bit and go forward then you can't go, you can't on 170th you can't go through and then a lot of times 159th has got everything blocked up. So I wish that there would be something. Plus the noise at night with those trains going back and forth, blowing whistles, you know it's very interruptive to your sleep and so I totally agree if those trains could be stopped down to a minimum, very, very minimum that would be a blessing for me. Okay then, thank you. Bye bye
