Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I am very concerned with this potential acquisition — I own my first home in Jewel Park (Barrington) which is right near the EJ+E railroad tracks. Not only is this railway system present in many areas of Barrington (5 crossings I believe), the current train traffic through our town is horrible. Commuters are trying to go east to get to RT 53, trying to go N/south to get to/from RT 90, and many other directions including east/west to get to the exploding Algonquin/Gilberts area. As you could see from tonights protest/march/town mtg, traffic was at a standstill — I was hoping that part of this march would've simulated one of the 25+ CN trains that could be crossing during rush hour to see what that would be like. For 7 minutes we could've stood on the tracks, blocked the roads and I BET we would've had more people pay attention to this issue.

PLEASE consider our quality of life, those of us with our first homes who are critically relying on their property values, the safety of our residents as well as the need for access to/from our closest hospital — Good Shepherd.

We rely on those who are appointed to make these decisions, and I trust you will make the right choice which is to vote NO to the CN acquisition of EJ+E.

YOUR INPUT IS IMPORTANT!
