ATTN: Dave Navecky - Docket No. FD35952

Surface Transportation Board
Office of Environmental Analysis|
395 E. Street SW
Washington, DC 20423-0001

Mr. Navecky:

I would like to express my environmental concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952.

I oppose the entire project and ask the Surface Transportation Board to deny the proposal.

My concerns are:

My concerns are: High speed train derailments will cause toxic chemical spills on prime farmland which will permanently destroy the soil and render it useless for crop production.

The rail line through the farms will cause much longer response times for police, fire and ambulance vehicles to respond to emergencies in rural communities due to length of time at railroad crossings and multiple township road closures.
