Message: My husband & I have 2 acres of wooded property that backs up to the tracks in Frankfort. we bought this property 5 years ago, realizing that there were tracks at the south end of the property but there were 4-6 trains per day. We have gotten used to these few trains. Now we learn of the impending sale and that the traffic will increase up to 28 trains per day. this will greatly affect our tranquil environment, our property values and our quality of life. We do not wish to move as we love our quiet cul-de-sac and our beautiful property. There are no "concessions" that will affect us. There is only one way to enter and exit our street- we live in a subdivision called Prestwick. The entrance/exit is off Aberdden, off Harlem. The train crossing is 1/2 block from the Aberdeen entrance/exit. With the increse of train traffic to 4-5 times, how will we be able to get to & from our homes? This is going to be devastating to our quiet, beautiful, charming community of homes. Although we understand the congestion issue in Chicago, we would like there to be other considerations of where the traffic might be routed-

Thank you for your consideration.
