Rini Ghosh
Surface Transportation Board
Case Control Unit
Washington, D.C. 20423

received
1/30/07

Dear Ms. Ghosh:

As a resident of Medina County, I recognize the financial needs of our schools and our county. I also recognize that Vulcan Materials will be paying a significant amount of new taxes to our schools and to our county when its rock quarry and rail line are operating. With that in mind, I ask the Surface Transportation Board to approve the most direct rail route as a means of allowing tax generation to start as soon as possible. If not the most direct route, please allow one of the alternative routes.

Sincerely,

SE
