I appreciate your efforts and hopeful that you are against this acquisition of the CN railroad. I live in the Barrington area and am totally against the CN's acquisition to purchase the EJ&E railroad. I am also very opposed to this foreign corporation who annually profits \$2 billion is asking the taxpayers to front the bill for the building of the grade separation infrastructure. I am very worried that the increased freight trains of up to 20 more per day would have an economic and environmental impact on this community. Also, they are carrying hazardous wastes right through our backyards and schools. The CN railroads have had several accidents with fatalities and evacuation of a three mile radius due to the overtiredness of their conductors and also to the tracks being not taken care of properly. Please don't put money over people's welfare and safety of their homes and children. Please don't allow this company to put money before people. Please fight against this acquisition and help this community of Barrington not be devastated by this huge company who does not care of the safety and concerns of our community. Thank you for your efforts to stop this CN acquisition.

Thank you for your consideration
