Transcript:

I'm against the, having the Canadian National Railway coming in to our area because it's gonna cost too much delay. We have enough delay as it is by trains. This is gonna really ruin the area. Plus safety, there's too many trains here with kids running around, it's gonna cause problems with children and even adults trying to cross the railroad tracks. And also, this is gonna cause problems just traveling in the area. I'm very much against this acquisition. Thank you very much. Have a good day. Bye
