

7-15-16

Dear Mr. Navecky,

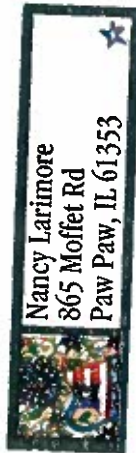

I do not want this train
thought my back 160 acs.
It will cut it in half and I
will lose about 40 acs. to
the railroad. I just got my
tiles running good through
the fields, the natural flow
of the water will be cut in
half, that will cause wetland
and flooding.

The noise and vibration will
be awful to my livestock and
me.

Don't let it happen!!!
