

Dear Mr. John - Bill

NOV 8 1908
75251081

I am writing to you about
The Canadian National Railway purchase
of E.S. & E.

I highly do not agree with
this purchase. This is not
progress, this is not serving
anybody other than the pockets
of Canadian National Railway.

Please do not approve
of this sale.

If the writing is already
on the wall, please make
them sound proof our
homes, secure our populations,
waste no the limits for labor
and exploration, check for
the building along the track
and an environmental study
to be done

(contd)

The people up north
moved into there. We moved
to here. Somethings shouldn't
be done in the name of
progress. By their own
words "We're screwing the
people of Will County" If
that is going to happen at
least have them pay for all
screwing that they are doing.
Again please say no

Thank You
Larry E Olenek
