Message: Regarding STB Finance docket No. 35095

My husband was critically ill when preliminary meetings were held and we had no knowledge of this project going forward until Mac rail surveyors and core drillers wanted to work on our property this past winter. Somehow our name was missed by the borough for their mailing list even though we have lived at Pt. MacKenzie Agriculture Project since 1983.

Please send me copies of the final scope of study, the date the draft EIS is expected, and the Final EIS and any future correspondence regarding meetings. Thank you for your help.
