

9/8/08

Dear Mr. Johnson-Ball

As a resident of Maple Hill complex in Waukegan we my wife and I are very much opposed to proposed purchase of the ETC E RR. by Canadian Natl. Large increase in traffic (70%) and chance of dangerous materials being transported has everyone in our complex very concerned. Presently we have enough noise and vibration with present traffic. Our safety and quality of life will be diminished by this transaction. We are adamantly against this sale!!
