Subject: Information Request Clarification

Josh and Debi,

As we discussed briefly in our call yesterday, I'd like some clarification on the following request from the November 25, 2019, letter requesting additional information. Under Item 6 – Water Resources, the last paragraph asks for the following:

Water use reports, data, maps, aerial photos, and ground-based photos. As indicated in the Coalition's June 18, 2019, response to Information Request #1, the Coalition indicated this information would be provided in December 2019. The Coalition intends to provide the requested water use reports, data, maps, and photos no later than December 20, 2019.

It seems to us that we will be delivering all of the map files and image files in our other tech memo deliverables. We're also not sure what is requested in terms of water use reports.

I look forward to talking this over with both of you.

Kevin
