AVISO DE ELECCIÓN

ESTADO DE TEXAS
CONDADO DE MEDINA

PARA LOS VOTANTES

PUBLIC NOTICE

The Surface Transportation Board (STB) has amended and updated the Programmatic Agreement (Original PA) developed to address potential impacts to historic properties from the Southwest Gulf Railroad Company's (SGR) approximately nine-mile rail line construction project to connect an existing Vulcan Materials limestone quarry with a Union Pacific rail line in Medina County, Texas. In 2008, the STB issued SGR a license to construct and operate a line of railroad as a common carrier along any of three approved environmentally preferred routing alternatives, subject to certain environmental mitigation measures and the terms of the Original PA. This approval remains in effect today, but the Original PA expired in 2013. The amended and updated PA (Amended PA) focuses on the route that SGR intends to construct and operate--the Modified Eastern Bypass Route. The Amended PA was developed in consultation with the Advisory Council on Historic Preservation, the Texas State Historic Preservation Office, and other interested parties. This notice announces the Amended PA's availability for public review and comment prior to execution of the document by the signatories. The document is available via email request to Diana Wood, Office of Environmental Analysis, Surface Transportation Board at woodd@stb.dot.gov and at the Hondo Public Library at 1011 19th Street, Hondo, TX 78861, and the Castroville Public Library at 802 London Street, Castroville, TX 78009. Comments must be received no later than **October 22, 2015**, via mail to Ms. Diana Wood at Surface Transportation Board, Office of Environmental Analysis 395 E Street SW, Washington, DC 20423, or by email to the above address.
