EI-24576

Dear Mr. Nance,

We are La Porte Co residents of 65 yrs. and would be directly, adversely affected by a proposed RR. More so than this, as farmers & Teachers, all these years we cannot justify the loss of Indiana's Best farm land and water.

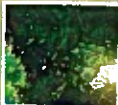

La Porte Co has seen a drastic increase in pollution and unexplained tumors & cancers in children here - the train traffic has increased tremendously in our life time - We do not need more Rail Ways destroying our family farms and premium natural assets - not to mention the added pollution -

Thanks for listening -

Phillip & Margaret Hannon
