Transcript:

I'm calling to stand in opposition to the proposed acquisition for a number of reasons. I'm concerned about significant vehicle delays at railroad crossings on already congested roads, the safety of the crossings, namely emergency response times can greatly increase due to the train traffic, as well as the increase in noise, vibrations, and increased pollution in the community, and also the neighboring cities and villages that use these roads for commutes to and from work, school, and other activities are going to feel the impacts of this. Those are just a number of the many concerns that I have and is the reason I stand in opposition to this. Thank you
