The proposed rail line would run through the south end of my farm, section 35 Cherry Valley Township Winnebago County Illinois. This is fertile farm land that can produce 200 bushel per acre corn yields.

Please consider an alternate route that runs along existing highways and business areas that could use a rail line. Don't destroy our fertile farm land. Once its gone it doesn't grow back.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
