STB Finance Docket #35095
Surface Transportation Board
395 E. Street SW
Washington, DC 205423

EI- 17968
Rec'd 6/2/08

Dear Mr. Navecky,

I own property in the vicinity of where the proposed Point MacKenzie Railroad has been recommended to be built. I believe they refer to this route as being the Houston South route.

I have grown up in this area and enjoy the recreation opportunities that exist in the area. Having a railroad track cut through a prime recreation area that has many roads, homes and cabins is very undesirable to me and my family. Therefore, in my opinion the Willow route would be a much better alternative because it is less intrusive on the residents in the area.

I ask that you change your recommendation to the Willow route.

Thank you for your time.

Sincerely,

Shaun Debenham
