Docket No. FD 35952
395 E Street SW
Washington, DC 20423-0001

Dear Mr. Navecky,

We are writing this letter in opposition to the planned GIBT high speed railway through prime farmland. We have a daughter and sister whose farms would be adversely affected by this railway and their home farm values reduced forever. We worry about the safety of their families. How will ambulance and fire services reach rural farms where country roads have been closed? What materials will be transported on the railway? Recent rail accidents spilling oil into the soil and ruining water supplies and ground soil, strengthen our concern about this unwise move to build high speed railroad. Please consider our request.

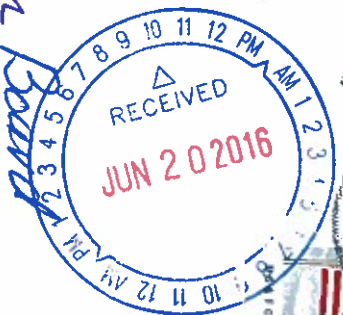

Regards,

Ronald and Patricia Kaufman
