Transcript:

In regard to the current Surface Transportation Board acquiring the railway for passing through Joliet, Elgin, Aurora. I am opposed to this. I do not want an increased risk to our school children who live and play in the area. Do not want the impact of lower property values that this may cause, in addition to the increase of the amount gasoline and diesel fuel used for the vehicles that are going across these crossings (so pollution). I am calling to say to vote no to the Canadian National Railway acquisition of the EJ&E line. We are definitely opposed as our home is 5 miles located from the railway and do not want increased pollution, increased taxes. NO. If you have any questions please feel free to give me a call. I will also submit in writing this response. Thank you. Bye. Bye.
