Transcript:

I'm commenting on the docket number FD-35087 regarding, in regards to the increase train traffic going through our area. It will affect me in ways that would be detrimental for our community and that it would just add more burden and I think that we, our neighborhood has already had to compromise on a lot of situations in the school district and that sort of thing this year, so I'm just calling to put my input in that I'm not in favor of the increased train traffic that would be going on. Thank you. Bye
