

14050

TO: PHILLIS JOHNSON-BALL
FROM: PETER J. WALSH

I wish to voice my concern regarding the issue of the CN Railway buying the E J & E and the dis. regard of the citizens of our town and of several other suburbs in its path. My concern is the tremendous amount of traffic and safety issues this will bring. Not only stopping emergency apparatus but bringing toxic and hazardous material thru these towns. The railroads don't care for the average citizen but I sincerely hope the STB will get together and vote this issue down -- Now! Thank you!
