**Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company**

STB Finance Docket No. 35087

Date: 9-21-08

Comments must be submitted by September 30, 2008.

Dear Surface Transportation Board:

I live about 3 blocks away from the rail line that intersects 116th Ave in Mokena. I am very worried about safety issues as there are no gates at this crossing and there is a junior high school about 3 blocks away.

I'm also concerned about the traffic congestion and delays it will cause for my kids' school busses. They will either have to get on the bus much earlier or risk being late for school. Emergency vehicles will also be severely delayed at several main roads where the rail line intersects.

Lastly, I'm concerned about an increase in the percentage of collisions, derailment and hazardous material transportation.

Please do not approve this transaction.

Sincerely,
Laura Cissell
