Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

We haven't heard a thing I'm sure he's up to NO
Good. I don't understand how he (G/A) can dis-
rupt so many lines just so he ~~can~~ make money.
I understand he's very well off, just wish he'd leave
our towns and country side alone. Other rail road
said they wouldn't use it so let him move on to something
else. Our Water, land, animals and landmarks are fine
just the way they are. They are very important to us and
others down stream from us. Please Stop this! Please

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
