Re: Olin Property, Wilmington, Massachusetts

Dear Ms. Johnson Ball:

As new residents of Wilmington, (3yrs) we take pride in our community + we look forward to raising our three young children in this town. As you know, the "Tier 1A" Olin site has been an ongoing nightmare + the health of our children has been an immediate concern. Instead of offering some relief for the damage caused by the decades of polluting on this side... they are now looking to further the damage by creating a "Trash Transfer Station", which will cause more pollution, add to the noise pollution + not only do we have to worry about the current water pollution, now we can add air pollution as well!! Instead of growing a town they will contribute to ruining our thriving town. Please help save our environment and help us create a town where its residents health comes before a company's bottom line. I would like to continue to be proud of my town, not be forced to look elsewhere!
 PLEASE HELP OUR TOWN!!

Sincerely,

EL KLT

P.S. As a concerned citizen, I would like to know how we can stop this transfer station. The traffic increase alone will be a huge concern since it will increase the risk of accidents... there is just no good that would come of this. Let us know what we can do!!

★ Thank You for your time! ★
